

FolioMed's Provider Data Services

is uniquely positioned to offer the most up to date, verified Provider information for your HIE Provider Registry.

With our Applied Program Interface (**API**) you can query for Provider information and request that Provider information for our Provider Master Index be updated.

Update requests are **verified** by our research staff before entered into the data repository.

Contact FolioMed today for more information on how we can help create **sustainability** for your **HIE**.
